Re-Moldable Shoes

The shoes that grow *with* you

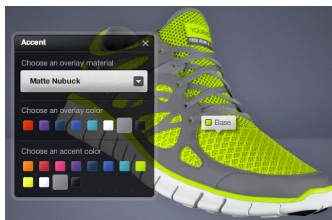

DESCRIPTION

Custom-shaped shoes made of a cheap thermal-plastic material (mouthguards) to fit closely to the user's foot.

Able to be re-molded to fit larger feet at an older age or to fit another member of the family.

Have flexibility, comfort, and an added safety support (Vibram FiveFingers)

Stylish CUSTOM BUILD options for college students (NIKEiD)

NEEDS

- Inexpensive, durable, reusable shoes
- Provide protection from inclement weather
- Provide protection from health (ground parasites) and safety risks
- Navigate tricky terrain
- Breathable
- Short drying time
